Hi Scott-

9am on Tuesday, Dec. 19 works well for us. I assume this going to be the prep call with you. When will we speak with Mr. Pillon? I think Jeff and I can be available Tuesday until about 11:15am, so we could potentially do both calls that morning. Please let me know your plan.

Thanks,
Kris

I am out of the office on Monday, but Tuesday morning should work just fine. What time would work best for you guys?

Hi Scott-

I spoke with Jeff Fowlow today and he is actually working part time right now. He will be available to speak with you to prepare for the call with Mr. Pillon and then to speak to Mr. Pillon anytime on Monday, Dec. 18 and before 11:15am on Tuesday, December 19. I would also like to be on the phone for those calls. (b) (6), and Jeff will be unavailable the following week. If we cannot schedule these calls for early next week, we would have to wait until after the holidays.

Please let me know if you are available during those times on Monday and Tuesday and we'll get it on our calendars.

Kris

Kris

I have spoken with Mr. Pillon and not unexpectantly he has agreed to stipulate to the lab results from the EPA folks (often once those folks are made available the defense decides that they no longer wish to contest that issue). So that means that Ms. Adams and Ms. McBride will not be required.

Mr. Pillon would also like to speak with "Mr. Fowlow's next in line" to get some preliminary questions answered. From past experience with the ECY folks I think the inquiry will focus on whether the test results and the observations from the site support the contention that Mr. Pillon's property possess "an imminent threat" to the environment. Do you know of anyone who could address that and would be willing to speak with Mr. Pillon and myself on a conference call? I would be happy to chat with them ahead of time and let them know what to expect.

Thank you,

Scott A. Marlow
